

Local Government Infrastructure Financing Program Application

ELIGIBLE APPLICANTS:

Each Maryland county and municipality is eligible to participate in the program provided it possesses the legal authority necessary for constructing, operating and maintaining the proposed project, for obtaining, giving security for and repaying the proposed loan, and receives income tax payments and various other shared revenues from the State.

PROGRAM PURPOSE:

Some local governments have difficulty obtaining long term capital financing with advantageous terms because of the relative small dollar amount of their needs, the expense and other impediments involved in becoming rated, and/or the complexity of the capital marketplace. The Local Government Infrastructure Financing Program provides an efficient and economical means of access to capital markets in order to finance specific infrastructure projects.
